DETAILS

Offering you a non-explosive, complete detoxification support that provides a cleansing of the body's digestive and related systems. Alpha contains vitamins, minerals, enzymes, dietary fiber, acidophilus, and several known herbal systemic cleansers and detoxifiers.

We recommend that every patient complete a detoxification support program prior to initiating a nutritional program. Alpha is most effective when done every 6 – 8 months.

Zymes: a two-stage digestive aid formulated to promote proper digestion in the stomach (stage 1) and the intestines (stage 2), thus cleaning and detoxifying the intestinal tract. This proprietary blend contains pepsin, bile salt, amylase, protease, lipase, bromelain, and papain.

Restore: an acidophilus consisting of over 12 different strains. A probiotic formulated to help restore and maintain normal flora in the intestinal tract. This proprietary blend contains lactobacillus plantarum, lactobacillus rhamnosus, bifidobacterium bifidum, bifidobacterium infantis, bifidobacterium longum, enterococcus faecium, lactobacillus acidophilus, lactobacillus casei, lactobacillus helveticus, lactobacillus salivarius, pediococcus acidilactici, and streptococcus thermophilus, apple pectin, and rice powder.

Core : a powerful iron-free multivitamin/mineral supplement specifically formulated for the needs of today's active lifestyle. It promotes good health and vitality by providing important nutrients that support against free radicals, slow the aging process, and support a cleansing and detoxification of the body.

Fibre: an all-natural fiber that expands to fifty times its original size in the stomach. This fibrous material works to clean the intestinal tract. This proprietary blend contains galactomannan, and glucomannan..

Kidney: designed to support the kidney and bladder. It primarily supports improved circulation, and nutrition to the kidney tissue.

Lymph: supports the lymphatic system by improved circulation and detoxification. This proprietary blend contains sassafras root bark, burdock root, dandelion root, foenugreek, and prickly ash bark.

Liver: a liver and gallbladder support that activates, tones, and increases secretions, causing detoxification. This proprietary blend contains barberry root bark, blessed thistle, dandelion root, boldo leaves, black radish seed, wild yam root, Fennel seed, and cloves.
