SUPPLEMENT FACTS

Serving size : 1 capsule (568 mg. capsule)

	Amount per serving	%DV
Vitamin A	1582 IU.	32%
Vitamin B-1	1.4 mg.	93.3%
Vitamin B-2	1.4 mg.	82.3%
Vitamin B-5	1.6 mg.	15%
Vitamin B-6	1.4 mg.	70%
Folic Acid	14.4 mcg.	3.6%
Niacinamide	1.4 mg.	7%
Biotin	0.15 mg.	1%
Vitamin B-12	0.15 mg.	25%
Vitamin E	35.4 mg.	137%
Vitamin C (ascorbic acid).....	65.6 mg.	109%
Iron (chelate).....	0.264 mg.	1.5%
Zinc (chelate).....	13.13 mg.	87.5%
Manganese (chelate).....	8.8 mg.	440%
Calcium (chelate).....	16.67 mg.	1.7%
Selenium (chelate).....	2.96 mg.	4228%
Copper (chelate).....	0.219 mg.	11%

Proprietary blend: Licorice, Scute, Bupleurum, Schizandra, Ganoderma, Pau-D-Arco, Tang Kuei, Astragalus, Lycium, Cnidium Ligustrum, EDTA, Cabbage, Kelp, Panax Ginseng, Thymus, Echinacea, Millettia, Ophiopogon, L-Cysteine, L-Gutathione, Glucan, Eleuthero, Codonopsis, Atractylodes, Rehmania.

Contains Eza (Amylase, Protease, Lipase, and Cellulase) ADPT: Elethero (Siberian Ginseng), Reishi (Ganoderma Mushroom), Jiaogulan, Cordyceps and Rhodiola Rosea.

Other ingredients: Gelatin capsule
(Contains no known allergens)

DETAILS

Humankind's immune system is designed to respond to constant attack from a wide array of viruses, bacteria, fungi, yeasts, and parasites. Help it help you with added nutrients to give your immunity a kick to high gear.

Guardian contains over 43 ingredients that work synergistically to boost combat. The ingredients found to be key in this product are Artimisiae, Astragalus, Ganoderma, Tabebuia, Licorice, Ginseng, Glucans, Zinc and Selenium, along with a beneficial mix of essential vitamins and minerals. Artimisiae and Astragalus are both used by the Chinese for supporting production of leukocytes, phagocytes, transforming lymphocytes, and generating interferons.

Interferons (IFNs) are natural cell-signaling proteins produced by the cells of the immune system in response to challenges by foreign agents such as viruses, parasites and tumor cells. They assist the immune response by inhibiting viral replication within host cells, activating natural killer cells and macrophages, increasing antigen presentation to lymphocytes, and inducing host cells' resistance to viral infection, thus improving immune function. Ganoderma is a Chinese mushroom which is used to support an increase in leukocytes and phagocyte production. Tabebuia is known as a specific immune booster.

Licorice and Ginseng are added to this product to promote phagocytosis and lymphocyte transformation. Licorice has also been known to support the body in combating issues such as stomach ulcers, bronchitis, sore throat, and other infections caused by viruses, including hepatitis. Glucans (Shiitake Mushrooms) are specific to support immune system integrity. Shiitake possess multiple chemicals that have demonstrated support antibacterial and antiviral properties. Zinc is needed for lymphoid tissue integrity, supporting levels of T- and B-Cell counts in the body; these cells are needed to help fight infection.

Selenium is another nutrient found in Guardian that is essential to tissue reparation. It supports protection against many immune problems. Guardian also contains ingredients such as Vitamins A, C, E, and B, L-Cystein, L-Glutathione and Thymus. Each of these ingredients is helpful in supporting the immune system.
